

Northern Australia

Iconic Wildlife and Timeless Landscapes

July 17 to July 30, 2027

Southern Cassowary
© Cheesemans' Ecology Safaris

SAFARI OVERVIEW

Experience the wild heart of **Northern Australia** on an immersive journey from the vibrant coastal town of Cairns to the ancient landscapes of Kakadu. Begin in the lush tropical lowlands and upland rainforests of **Queensland**, where you'll search for **Southern Cassowaries**, **Victoria's Riflebird**, tree kangaroos, and a dazzling array of tropical birds. Continue north to the **Daintree River** for a cruise among kingfishers, herons, and crocodiles before flying west to the Top End. In the **Northern Territory**, explore the mangroves and monsoon forests around **Darwin**, then delve into the cultural and ecological wonders of **Kakadu National Park**, home to **Aboriginal rock art**, expansive wetlands, and elusive species like the black wallaroo and Rainbow Pitta. From coastal rainforests to sandstone escarpments, this expertly guided expedition offers unforgettable wildlife encounters and deep insight into **Australia's rich** natural and cultural heritage.

WHY CHOOSE THIS TRIP?

- **Diverse Habitats:** Experience a variety of landscapes, including tropical rainforests, wetlands, savannahs, and sandstone escarpments, each supporting unique wildlife.
- **Exclusive Wildlife Encounters:** Search for rare and endemic species such as the Southern Cassowary, Victoria's Riflebird, Rainbow Pitta, and black wallaroo.
- **Expert-Led Exploration:** Our knowledgeable guides provide insights into the region's natural and cultural history, enhancing your understanding of this extraordinary ecosystem.
- **Small Group Experience:** Enjoy a personalized, small-group adventure, ensuring quality wildlife encounters and ample photography opportunities.

- **Conservation-Focused Travel:** We are committed to sustainable travel practices that protect and respect the environments we visit.

DAYS: 14, including estimated travel time.

GROUP SIZE: 8

COST: \$8,750 per person, double occupancy, not including airfare, singles extra. See the *Costs* section on page 7 for details.

Date	Description	Accommodation	Meals
Jul 17-18	Travel to Cairns, Australia.		
Jul 19	Cairns arrival and exploration. Arrive in Cairns and start your wildlife explorations.	Harbourside Hotel, Cairns	D
Jul 20	Cairns to Atherton Tablelands. Journey to the Atherton Tablelands via coastal rainforest, with a chance to see the Southern Cassowary and diverse birdlife.	Chambers Rainforest Lodges, Atherton Tablelands	B, L, D
Jul 21	Atherton Tablelands. Spend the day birding across the varied habitats of the Atherton Tablelands, with excellent opportunities for mammals and endemics.	Chambers Rainforest Lodges, Atherton Tablelands	B, L, D
Jul 22	Atherton Tablelands to Daintree. Continue birding in the Tablelands before heading north to the famed Daintree region.	Riverview Lodges, Daintree	B, L, D
Jul 23	Daintree cruise. Cruise the Daintree River for kingfishers, herons, and crocodiles, then return to Cairns.	Harbourside Hotel, Cairns	B, L, D
Jul 24	Cairns to Darwin. Fly to Darwin and explore the monsoon forests and mangroves for rare species like the Rainbow Pitta and Chestnut Rail.	The Leea Hotel Darwin, Darwin	B, L, D
Jul 25	Darwin to Kakadu. Visit Fogg Dam and travel to Kakadu National Park, spotlighting for nocturnal species after sunset.	Anbinik Kakadu Resort, Kakadu	B, L, D
Jul 26	Kakadu. Discover the bird-rich Mamukala Wetlands and Aboriginal rock art at Ubirr in Kakadu.	Anbinik Kakadu Resort, Kakadu	B, L, D

LEADERS

Jane Blackwood

Based in the Tablelands of North Queensland, she has spent much of her career as a land manager and ranger working with Traditional Owners across northern Australia, from the Kimberley to the Top End, Central Australia, and Far North Queensland. Formally trained in ecology at the University of Queensland and James Cook University, she has also gained hands-on knowledge of the region’s landscapes, seasons, and wildlife from Indigenous Elders. A lifelong birdwatcher, she developed her passion for birds on family camping trips and has contributed to research projects such as studying Arctic Terns in the Shetland Islands. Today, she continues to share this knowledge through bird monitoring programs and native plant identification work on Indigenous Protected Areas.

DETAILED ITINERARY

Jul 17 – 18 ~ Travel to Cairns, Australia

Begin your journey to Northern Australia, arriving in **Cairns, Queensland** the gateway to some of the most biodiverse landscapes in Australia.

Jul 19 ~ Cairns

Arrive in Cairns, a laid-back town on the Coral Sea. We will have time to stroll along the waterfront park a few steps from your hotel, to look for local specialties like **Varied Honeyeater, Torresian Imperial Pigeon, Rainbow Lorikeet, Mangrove Robin, Torresian Kingfisher, Rose-crowned Fruit-dove** and **Sahul Sunbird**. We will be able to see several different shorebirds out on the extensive mudflats, such as **Far Eastern Curlew, Great Knot, Sharp-tailed Sandpiper** and **Terek Sandpiper**. There should also be **Gull-billed Tern, Australian Pelican, Eastern Osprey** and maybe an **Eastern Reef Egret** or two.

Southern Cassowary

Jul 20~ Cairns to Atherton Tablelands

After a pre-breakfast walk, we will head south of Cairns to look for one of Australia’s most amazing birds – the **Southern Cassowary**. If our luck is in, we should see at least one or two of these stately ratites on the roadside at a coastal rainforest location on our way. Other birds seen here include **Lovely Fairy-wren, Macleay’s Honeyeater, White-bellied Sea-eagle** and **Pheasant Coucal**. From here we will head up towards the **Atherton Tablelands**, on the way picking up birds like **Yellow-spotted & Graceful Honeyeaters, Australian Swiftlet, Rufous (Little) Shrike-thrush, Australasian Figbird,**

Rainbow Bee-eater, Metallic Starling, White-bellied Cuckoo-shrike, Mistletoebird and Masked Lapwing. Reaching our destination near the **Crater Lakes National Park**, we will settle in and have a good look around. Surrounded by upland rainforest, our accommodation is often visited by Victoria's Riflebird, Spotted Catbird, Grey-headed Robin, Barred Cuckoo-shrike, Wompoo Fruit-dove, Superb Fruit-dove, Pale-yellow Robin, Scarlet Myzomela, Eastern Spinebill, Red-browed Finch and Olive-backed Oriole.

Jul 21 ~ Atherton Tablelands

With this as our base for the next three days, we will explore the wide variety of habitats that are within our reach here on the Atherton Tablelands. With upland rainforest, tropical savannah woodlands, grassland and agricultural fields, wetlands, and swamps to explore, we will be looking for birds like Brolga, Sarus Crane, Great Crested Grebe, **Plumed Whistling-Duck**, Nankeen Night-heron, Royal and Yellow-billed Spoonbill, White-necked Heron, Black-necked Stork, Buff-banded Rail, White-headed Pigeon, Pacific Baza, Spotted Harrier, **Lesser Sooty Owl**, the rainforest-inhabiting form (subsp *lurida*) of **Australian Boobook**, Tooth-billed Bowerbird, Fernwren, Bridled Honeyeater, Atherton Scrubwren, Fairy and Brown Gerygones, **Mountain Thornbill**, Chowchilla, Bower's Shrike-thrush, Double-eyed Fig-Parrot (Wet Tropics subsp *macleayana*), Black-faced, Pied, Spectacled and White-eared Monarchs, Shining Bronze-cuckoo, **Fan-tailed Cuckoo**, and Grey-headed Robin.

Sarus Cranes
© Bob Lewis

We will have a great chance of seeing a range of mammals, including Striped Possum, Krefft's (Sugar) Glider, Green Ringtail Possum, Long-nosed Bandicoot, Musky Rat Kangaroo, Lumholtz's Tree Kangaroo, Red-legged Pademelon, Agile Wallaby, and Giant White-tailed Rat. The prehistoric-looking **Boyd's Rainforest Dragon** also occurs here.

Jul 22 ~ Atherton Tablelands to Daintree

After a morning's birding in the rainforest looking for any bird species we may still be missing, we will leave the higher altitude rainforests and head north to the **Daintree River** region, via a range of open woodland habitats and tropical savannahs. Birds we hope to connect with today include Australian Bustard, Black-necked Stork, Red-tailed Black-Cockatoo, **Sulphur-crested Cockatoo**, Squatter Pigeon, White-throated Honeyeater, Grey-crowned Babbler, Noisy & Little Friarbirds, White-throated Gerygone, Red-winged Parrot,

Sulphur-crested Cockatoo
© Debbie Thompson

Great Bowerbird, Cotton Pygmy-goose, Pale-headed Rosella, **Blue-winged Kookaburra** and Green (Yellow) Oriole. Our destination for the evening will be the famous Daintree area.

Jul 23 ~ Daintree cruise

Enjoy a boat cruise on the Daintree River, where we will hopefully catch up with **Azure** and **Little Kingfisher**, Large-billed Gerygone, Black Bittern, Pacific Baza, Varied Triller, Shining Flycatcher, Chestnut-breasted Mannikin, Brown-backed Honeyeater, and Fairy Martin, as well as a chance of the rare and localized Great-billed Heron. Additional species we may see in the area include Bar-shouldered Dove, Pacific Koel, **Papuan Frogmouth**, Scaly-breasted Lorikeet, **Hornbill (Helmeted) Friarbird**, Dusky Myzomela, and White-breasted Woodswallow. Reptiles to see include saltwater crocodile, amethystine python, and common tree snake. We will then make our way back to Cairns where, depending on what species we have yet to see, we will spend the rest of the afternoon exploring.

Azure Kingfisher
© Cheesemans' Ecology Safaris

Jul 24 ~ Cairns to Darwin

Today we will fly from Cairns to Darwin, capital of the **Northern Territory** and Australia's northernmost city. We will spend some time in the mangrove and monsoon forests looking for the elusive **Chestnut Rail**, Rufous Owl, Orange-footed Scrub-fowl, Rose-crowned Fruit Dove, the striking **Rainbow Pitta**, Forest Kingfisher, Red-headed Myzomela, Mangrove Robin, Green Oriole, Blue-faced Honeyeater, Green-backed Gerygone, Spangled Drongo, Blue-winged Kookaburra, Great Bowerbird, Pheasant Coucal, Pied and Silver-backed Butcherbird, and Red-collared Lorikeet. **Little red flying-fox** and **agile wallaby** are possible mammal highlights.

Red-collared Lorikeet
© Andrew Brown

Jul 25 ~ Darwin to Kakadu

This morning, we start the day with a visit to Fogg Dam, a well-known site that is an excellent area for waterbirds including Magpie Goose, Green Pygmy-goose, Pied Heron, Glossy Ibis, the stately Brolga, White-browed Crake, and the quirky **Comb-crested Jacana**. En route to **Kakadu**, we will enjoy a stop at the Adelaide River crossing for lunch, where we may see **Mangrove Golden Whistler** and a variety of flycatchers like Shining, Leaden, Restless, and Broad-billed Flycatchers. On arrival in Kakadu, we will enjoy a stroll to a local lagoon not far from our cabins to take in the

Comb-crested Jacana

sunset. After dinner, we may enjoy some spotlighting for nocturnal species such as **Barking Owl**, Tawny Frogmouth, Large-tailed Nightjar, and **Australian Owllet-nightjar**.

Jul 26 ~ Kakadu

In the morning, we will make a stop at the impressive **Mamukala Wetlands**, where, if conditions are right, we can enjoy thousands of birds of many species. Plumed and Wandering Whistling-ducks, Radjah Shelduck, Black-necked Stork, Magpie Goose, and Green Pygmy-goose are possible bird highlights, and **Arafura File Snakes** and **Long-necked Turtles** can also be found here, a traditional hunting ground for the local Indigenous people. There will also be an option to visit Ubirr, a site of rock outcrops in Kakadu that is home to some impressive **Aboriginal rock art**. The art depicts creation ancestors and animals of the area, including several fish and turtle species, wallabies, and possums. In the late afternoon, **Wilkin's rock wallabies** (a relatively recent split from Short-eared rock wallabies) may be seen emerging from their shelters. Bird specialties found here include Sandstone Shrike-Thrush, Chestnut Quilled Rock Pigeon, Partridge Pigeon (red-eyed form), and Rufous-throated Honeyeater.

Long-Necked Turtle
© Cheesemans' Ecology Safaris

Jul 27 ~ Kakadu

This morning, we will make an early visit to **Nourlangie Rock**, where we have a reasonable chance of seeing the range-restricted **black Wwallaroo**, **Banded Fruit-dove**, **White-lined Honeyeater**, Little Woodswallow, Black-tailed Treecreeper, and Helmeted Friarbird. Elsewhere throughout the park, we'll hope to connect with tropical woodland species like Partridge Pigeon (red-eyed form, subsp smithii), **Rainbow Bee-eater**, Black Bittern, Long-tailed Finch, and both Rufous-banded and Rufous-throated Honeyeaters. There is a reasonable chance of spotting a **Red Goshawk** in Kakadu as well, so we'll need to scrutinize the skies at all times. We'll spend the heat of the day in the Jabiru area of Kakadu, which will include a visit to the Bowali Information Centre, where an interpretive walk-through display explains in some detail the cultural heritage and natural history of the Gagadju (Kakadu) region. The Bininj-Mungguy Indigenous culture dates back tens of thousands of years, and there are some fascinating insights there at the center; the surrounding grounds provide a good chance to see a range of birds. After dinner, if we're feeling energetic, we can spotlight for mammals like **Black-footed tree-rat** and **savannah (sugar) glider**.

Rainbow Bee-eater
© Cheesemans' Ecology Safaris

Jul 28 ~ Kakadu to Darwin

We will take a morning cruise on **Yellow Water Billabong**, an impressive wetland of channels, swamps, and floodplains that is a delight to explore and is home to plenty of crocodiles and a variety of waterbirds, including Nankeen Night-heron, Black-necked Stork, Little Kingfisher, and Purple Swampphen. Raptors such as **White-bellied Sea-eagle** and Whistling and **Black Kites** are also commonly seen here, and we will spot plenty of **saltwater crocodiles** in the water and on the banks. We will then enjoy a last look around Kakadu before

making our way out of the park and heading back to Darwin. On the way back, we will visit **Howard Springs Nature Park**, where large fish such as barramundi and reptiles like yellow-faced turtle and Mertens' water monitor can be viewed. We will also be searching for the shy Rainbow Pitta. We will return to Darwin in the late afternoon.

Jul 29 ~ Depart Darwin

After breakfast, transfer to **Darwin Airport**, concluding your Northern Australia wildlife expedition.

Jul 30 ~ Arrive home

Return home, bringing with you lasting memories of Australia's unique wildlife, dramatic landscapes, and once-in-a-lifetime wildlife encounters.

COSTS (ALL COSTS ARE IN US DOLLARS)

Cost

Type	Cost per Person
Trip Cost, double occupancy	\$8,750
Single Supplement	\$1,600

Costs are per person, double occupancy, not including airfare, singles extra. See *Included* and *Not Included* sections for more details.

Payment Schedule

Payment	Due Date	Amount per Person
Deposit	Due now to reserve your space	\$500
Final	January 19, 2027	Remaining Balance

Payments are due based on the schedule above. All reservations require a deposit to confirm reservation of your space.

Cancellations

Until the Final Payment due date, deposits are refundable except for a cancellation fee of \$150 per person, which can be applied toward another trip if reserved within six months of the cancelled trip's departure date. Cancellations are non-transferrable. No refunds are given after the Final Payment due date.

Included

- Carbon offsets for the duration of this trip.
- All leaders, transport (except airport transfers), park entry fees, landing fees, permits, Goods and Services Tax (=VAT) for all activities unless described as optional.
- Accommodations (double occupancy) for the nights of July 19 through July 28.
- Meals from dinner on July 19 through breakfast on July 29, except meals listed in *Not Included* section.

Not Included

- Carbon offsets for your flights to/from this trip.
- All airfare, airport and departure taxes, and excess baggage fees.

- Transfers on July 19 between the Cairns Airport and Harbourside Hotel and on July 29 between The Leea Hotel Darwin and the Darwin Airport.
- Passport and visa fees.
- Breakfast and lunch on July 19 and lunch and dinner on July 29.
- Divergent airport transfers (arranged by us) and extra hotel nights.
- Gratuities.
- Optional [trip cancellation insurance](#).
- Items of a personal nature such as laundry, telephone calls, medical costs or hospitalization, room service, alcoholic and other beverages, items not on the regular menu, etc. If you have special dietary needs, please indicate them on your Traveler Form.

SIGN UP

Please contact us first to check availability, reserve your space, and obtain a Traveler Form. To confirm your reservation, we require a deposit and signed form from each participant.

OTHER DETAILS

Climate

July is generally pleasant and ideal for outdoor activities, as it falls during the region's dry season. In Queensland's Wet Tropics, including Cairns and the Atherton Tablelands, temperatures range from 73–79°F (23–26°C) during the day and 50–59°F (10–15°C) at night, with low humidity and little rainfall. In the Northern Territory's Top End, including Kakadu National Park, days are warm and sunny with highs around 86°F (30°C), while evenings are cooler and comfortable. This time of year offers clear skies, minimal rain, and excellent conditions for wildlife viewing, as animals often gather near water sources.

Fitness Level

This trip is best suited for travelers with a moderate level of fitness. Most days involve guided walks, wildlife excursions, and spotlighting outings that require participants to be comfortable walking on uneven trails, sometimes for extended periods. The itinerary includes long immersive days in nature with early starts to maximize wildlife sightings, so a good level of stamina and enthusiasm for full days in the field is important. You'll be exploring a range of habitats, from rainforest to savannah and wetlands, often in warm and humid tropical conditions. While not physically strenuous, the trip does require reasonable mobility and a readiness to be active and outdoors throughout the journey.

Flights

Detailed logistical information is included in the Trip Planning Materials we will send you.

Flights you book

- Arrive in Cairns, Australia (CNS) by 1:00 PM on July 19.
- Depart from Darwin (DRW) after 12:00 PM on July 29.

Flights we book

- The one-way flight from Cairns to Darwin; we'll add the flight cost to your final trip balance.

Terms and Conditions

Read our current [Terms and Conditions](#).

Conservation

Our company ethos has always regarded conservation as inseparable from responsible tourism. We struggle with the dilemma that traveling worldwide expends climate-changing carbon. However, we wholeheartedly believe that traveling with us will cultivate your passion for conserving our beautiful world while stimulating each destination's local economy. We encourage you to explore the various ways in which Cheesemans' operates within this context:

- **Ecotourism and Conservation for [Australia](#).**
- **Cheesemans' Trips are [Carbon Neutral](#).**
- **Offsetting your Travel to/from our Trip:** We ask you to pledge to offset the carbon emissions for your travel to and from our trips. You can purchase offsets with most airlines (Delta includes them automatically), use our handy [carbon calculator](#) and donate to Sustainable Travel International, or contribute to your favorite offsetting organization.
